

# CALL FOR PAPERS

## FAIR2019

4 – 6 December 2019, Cape Town

The Organising Committee of the inaugural South African Forum for Artificial Intelligence Research (FAIR2019), invites the submission of original research papers for presentation at the conference, to be held in Cape Town, from 4-6 December 2019. All papers will be reviewed by research peers, and accepted papers will be published in the FAIR proceedings. A separate work-in-progress track will provide researchers with the opportunity to present work which is not sufficiently mature for the main conference; papers in this track will not be published.

**Papers on the following topics are invited:**

Machine learning	Knowledge representation
Applications of AI	Ethics and AI
Other topics in AI	Work in progress (not for publication)

### Submission guidelines:

- All papers must be original and not simultaneously submitted to another journal or conference.
- Authors are encouraged to submit full papers at the time of abstract submission, if possible. All papers received by that date will be reviewed within 30 days, to assist authors whose travel arrangements depend on paper acceptance.
- The submission must be done through the EasyChair Conference System.
- Visit our website for further instructions.

### Important dates:

First abstract submission  
15 September 2019

Final paper submission  
15 October 2019

Notice of acceptance  
11 November 2019
