

INTERNATIONAL SYMPOSIUM ON BIOINFORMATICS RESEARCH AND APPLICATIONS

3-5 August 2025, University of Helsinki, Finland

[Call for Papers →](#)

ISBRA2025

Welcome

The International Symposium on Bioinformatics Research and Applications (ISBRA) provides a forum for the exchange of ideas and results among researchers, developers, and practitioners working on all aspects of bioinformatics and computational biology and their applications. Submissions presenting original research are solicited in all areas of bioinformatics and computational biology, including the development of experimental or commercial systems. The previous ISBRA proceedings on SpringerLink is available at the [Springer Website](#). Topics of interest include but are not limited to:

Biomarker discovery	High-performance bio-computing	Biomedical databases and data integration	Biomedical text mining and ontologies	Metagenomics
Molecular evolution	Biomolecular imaging	Molecular modeling and simulation	Spatial omics	Population genetics
Systems biology	Structural biology and drug discovery	AI and machine learning tools in medical bioinformatics	Big Data analytics in biology and medicine	Computational epidemiology

Important Days

- Submission deadline: **March 25, 2025**
- Notification of acceptance: **May 1, 2025**
- Final version due: **May 12, 2025**
- Conference: **August 3-5, 2025**
