The 22nd International Symposium on Bioinformatics Research and Applications(ISBRA 2026)

July, 22-24, 2026 Macao SAR

https://isbra2026.scimeeting.cn/

We are delighted to extend our warmest welcome to you for the International Symposium on Bioinformatics Research and Applications (ISBRA 2026), taking place in the captivating city of Macau. For years, ISBRA has stood as a leading global platform where researchers, developers, and practitioners in bioinformatics and computational biology come together to share pioneering ideas and research achievements.

This year's symposium invites the submission of original research spanning all areas of bioinformatics and computational biology. Topics of interest include, but are not limited to:

Biomarker discovery	Biomedical databases and data integration
Biomedical text mining and ontologies	Biomolecular imaging
Comparative genomics	Computational genetic epidemiology
Computational proteomics	Data mining and visualization
Gene expression analysis	Structural biology
Genome analysis	Systems biology

Paper Submission

Please submit extended abstracts (up to 12 pages in the LNCS/CCIS one-column page format) via the online submission system (https://easychair.org/conferences/?conf=isbra2026). Submission implies the willingness of at least one author to register and present at the symposium. The authors should choose one of the following tracks:

Track 1: Submit up to 12 pages in LNCS format for (i) publication of the extended abstract in the Springer LNBI Proceedings and (ii) invitation to submit a 30%-50%-extended version to ISBRA2026 special issues. The pending approval journals are IEEE/ACM Transactions on Computational Biology and Bioinformatics, IEEE Transactions on Molecular, Biological, and Multi-Scale Communications, Journal of Computer Science and Technology, Tsinghua Science and Technology, Chinese Journal of Electronics, Big Data Mining and Analytics, IEEE Journal of Biomedical and Health Informatics, NPJ Systems Biology and Applications.

Track 2: Submit up to 12 pages in LNCS format for (i) a presentation at the conference and (ii) an invitation to submit a full-length paper to ISBRA2026 special issues. The pending approval journals are:Computational Biology Methods, Interdisciplinary Sciences-Computational Life Sciences, Health information science and systems, Quantitative Biology, BMC Bioinformatics, BMC Genomics.

IMPORTANT DATES

Submission Deadline: March 15, 2026
Notification: April 20, 2026
Final Version Due: May 20, 2026
Conference: July 22-24, 2026
